WR Series
roll out rotating system in steel host enclosure

- Rotating design allows enhanced access to rear equipment connections, simplifying wiring
- 26” and 36” usable depth, rack frame is housed in a 32-7/8” or 42-7/8” deep host enclosure
- Available in 44, 37 and 24 space rack frame heights
- Host enclosure can be pre-installed on-site while detachable rack frame is integrated with equipment off-site, simplifying installation
- 750 lb. weight capacity with proper weight distribution
- Effective cable management system provided. Slots in upper rack frame accommodate Velcro™ ties for additional cable management
- UL Listed in the US and Canada

EIA compliant 19” roll out rotating system in steel host enclosure shall be Middle Atlantic Products model # WR-__-__ (refer to chart). Overall dimensions shall be 24” W x __” H x __” D (refer to chart). Rotating design of rack allows enhanced access to rear equipment connections, simplifying wiring. Rack will have a __” usable depth and the rack frame shall be housed in a __” depth host enclosure (refer to chart). Rack shall be of fully welded construction. Weight capacity shall be 750 lbs. when 1/2 of total equipment weight is mounted in lower 1/3 of the rack. Rack shall be constructed of the following materials: top and bottom (rack and outer frame) and roller carriage shall be 14-gauge steel; side panel and horizontal braces shall be 16-gauge steel. Rack shall be constructed of 11-gauge steel with tapped 10-32 mounting holes in universal EIA spacing with marked rackspaces. Rack shall have removable split rear knockout panels with 1/2”, 3/4”, 1” & 1-1/2” electrical knockouts installed in base and removable split rear knockout panels with 1/2”, 3/4”, 1” & 1-1/2” electrical knockouts and BNC knockouts for UHF / VHF antennae installed in top. Knockouts on sides to accommodate 4” electrical conduit and cable pass-through. Detachable rack frame allows for off-site integration. Roll out frame ships installed in rack. Rack shall be UL Listed in the US and Canada to the UL-2416 (NWIN) Category. Rack shall be GREENGUARD Gold Certified. Rack shall comply with the requirements of RoHS EU Directive 2002/95/EC. Rack shall be manufactured by an ISO 9001 and ISO 14001 registered company. Rack shall be warranted to be free from defects in material or workmanship under normal use and conditions for a period of three years.
