OCAP Series

Clamping rackshelf for cable / satellite box provides maximum heat dissipation with open-area design

FEATURES:

• Adjustable, foam padded mounting and clamping bars
• Two sizes available; two space model for higher density and three space model for greater heat dissipation
• Constructed of 16-gauge steel
• Weight capacity of 25 lbs.
• Provides superior ventilation, eliminates the need for vent panels
• Durable flat black powder coat finish

EIA / TIA COMPLIANT

EIA compliant 19” lamping rackshelf for cable / satellite box shall be Middle Atlantic Products model # OCAP - (2,3). Rackshelf shall occupy (2,3) rackspaces. Rackshelf shall feature adjustable, foam padded mounting and clamping bars to secure component while preventing scratches and allowing greater heat dissipation. Clamping rackshelf shall be constructed of 16-gauge steel with a 25 lb. weight capacity. Unit shall be finished in a durable flat black powder coat. Clamping rackshelf shall be manufactured by an ISO 9001 and ISO 14001 registered company. Clamping rackshelf shall be warranted to be free from defects in material or workmanship under normal use and conditions for the lifetime of the product.
