

# PowerCool™ Series

power distribution and cooling

space saving integrated power and cooling solution

## features:

- Space saving 1 rackspace design
- Fan speed proportional to temperature of enclosure to extend fan life, reduce dust and maintenance
- 2 stage surge suppression protects against damage from power surges and spikes
- Provides notification when surge protection is compromised via local LEDs and dry contact (depending on model)
- Quiet operation, 29 dB
- Available keyswitch model prevents unauthorized control of unit
- Available in flat black or black brushed and anodized finishes

## specifications:

EIA compliant 19" PowerCool™ Rackmount power distribution and cooling unit shall be Middle Atlantic Products model # PD-COOL-\_\_ (refer to chart), with a \_\_ (15, 20 refer to chart) amp capacity, 2 stage, normal mode (Line to Neutral) spike and surge suppression with dry contact and LED status indicators and EMI filtering. PowerCool shall activate at 87°F (30.5°C), reach full speed at 95°F (35°C) and switch off at 85°F (29.4°C). PowerCool shall displace 50 CFM with a maximum decibel level of 29 dB (measurements made 1 meter from source, centered horizontally and vertically). PowerCool shall operate at a static pressure of .031 in. H2O. PowerCool shall have a removable 10" temperature probe. PowerCool shall have a normally open contact closure for remote surge suppression status notification to customer supplied monitoring device shall operate on 120 volt AC/60Hz nominal power. PowerCool shall have a removable 6' \_\_A (14-3) IEC SignalSAFE™ power cord with IEC C-(14 or 20) receptacle (refer to chart). PowerCool shall have \_\_ (0,1) front and 10 NEMA 5-\_\_R outlets, and (circuit breaker switch with switch guard, keyswitch, always on, refer to chart) located on the front of the unit. "Clean ground" surge suppressor design shall not pass noise contamination to the ground. PowerCool shall occupy one rackspace with a (flat black, black brushed and anodized finish, refer to chart). PowerCool shall comply with the requirements of RoHS EU Directive 2011/95/EC. PowerCool shall be manufactured by an ISO 9001 registered company. PowerCool shall be warranted to be free from defects in materials and workmanship under normal use and conditions for a period of 3 years. PowerCool shall be ETL listed to UL standard 60950 in the US and CAN/CSA C22.2 #60950 in Canada.
