The QBP-2 is quieter, yet puts out more CFM than other 1 space fan panels

**Features**

- Quiet operation, 32 db
- Fan speeds proportional to temperature of enclosure to extend fan life, reduce dust and maintenance
- Proprietary blowers provide high static pressure to maintain airflow even in crowded racks.
- For smaller rack systems and credenzas where space is at a premium and quiet operation is a must
- Compact design occupies only 1 rackspace
- 1/2 rack model also available
