The SFR Series open swing frame wall rack provides easy and economical rear equipment access

Features

- Open wall mount design allows equipment to swing out, greatly simplifying wiring tasks
- Innovative 90° “positive stop” design facilities punching down while fully open
- 10”, 16” and 22” useable equipment depth
- 100 lb. weight capacity
- Durable black powder coat finish

Architects’ and Engineers’ Specifications

EIA compliant 19” wall-mount swing gate rack shall be Middle Atlantic Products model number SFR:__-__ (refer to chart). Overall height shall be ____” (refer to chart), useable rack height shall be ____” (refer to chart), maximum depth shall be ____” (refer to drawing), useable depth shall be ____” (refer to drawing). Weight capacity shall be 100 lbs. SFR shall be constructed of the following materials: backpan shall be 14-gauge steel with durable black powder coat finish, rackrail shall be 11-gauge steel rackrail with tapped 10-32 mounting holes in universal EIA spacing with black e-coat finish and marked rackspaces. SFR shall be GREENGUARD Gold Certified. SFR shall be manufactured by an ISO 9001 and ISO 14001 registered company. SFR shall be warranted to be free from defects in material and workmanship under normal use and conditions for the lifetime of the rack.
