## ESSEX FAN TOP, 138 CFM

FANTOP-138DC |

---

### FEATURES & BENEFITS

The Essex Fan Top attaches to the top of QAR and MMR Series racks and includes quiet, energy-efficient DC fans to remove heat. Designed for easy installation by sliding into place and tightening, two fan tops can be used for up to 276 CFM. They help ensure that installed AV systems run reliably and are finished with a professional touch.

- Specially designed for quick and easy integration with Essex Collection racks
- Slide into place and tighten for simple installation
- Two fan tops can be used per rack for up to 276 CFM
- Includes 2 quiet (32 dBA), energy-efficient DC fans
- Can be attached to the top of any QAR and MMR Series rack
- Can be controlled by addition of Thermostatic Fan Control option
